VALUE SUMMARY

We're a high performing, close-knit software engineering team looking to partner with a company in competitive talent markets like Silicon Valley and NYC.

Eight Thirty isn't a recruiter or job shop, so we don't shuffle resumes or do short-term work. Instead, we partner exclusively with you in a long term relationship.

As your satellite team, we work and collaborate like full-time employees in a well-managed remote office.

KEY BULLETS

- Proven & Ready Team
- Fully Remote
- Premium Talent
- Co-located in Canada
- Full Stack Engineering
- Cloud Infrastructure
- Embedded Product & Project Management

HOW WE WORK

Unlike outsourcing, we're highly available and involved through virtual spaces, desktop sharing, and always-on video/audio conferencing. Our development process is built around the idea of remote without the pain or risk. We're experts at remote work that actually works.

Our team can hire to scale up as needed, or travel within North America for onsite meetings and discussions.

DOMAIN EXPERIENCE

- Finance, Banking & Payments
- Trading, Equities
- Energy
- Telecommunications
- Transportation
- Gaming / Gambling
- Mobile
